

## SOFT STONES

Kivikko is more than just a seat – it tempts its users to experiment, play and spend time together. **Ilkka Suppanen** designed these large floor cushions for Marimekko and they are also available with covers in printed Marimekko fabrics. The “stones” of Kivikko come in three sizes, from seats to neck cushion size. [www.suppanen.com](http://www.suppanen.com), [www.marimekko.fi](http://www.marimekko.fi)

## LUMME

“My ambition is to create objects that surround people in their everyday life,” says designer **Mikko Laakkonen**. He has recently designed the small and colourful Lumme containers for Marimekko. [www.mikkolaakkonen.com](http://www.mikkolaakkonen.com), [www.marimekko.fi](http://www.marimekko.fi)

## 10-UNIT SYSTEM

Artek has invested in research and product development since its early years. In collaboration with UPM-Kymmene, it has developed the use of environmentally friendly wood plastic composite made from recycled materials. The 10-Unit System furniture concept designed by the internationally renowned Japanese architect **Shigeru Ban** is made from completely recyclable UPM ProFi material. Its L-shaped elements can be assembled into chairs, tables and benches. [www.artek.fi](http://www.artek.fi)
